13th Update Symposium Cardiopulmonary Exercise Testing

Saturday 8 June 2024 at Duomed Belgium

The Belgian Working Group on Preventive Cardiology of the Belgian Society of Cardiology joins forces once again with Duomed Belgium to organise the **13th Update Symposium Cardiopulmonary Exercise Testing**.

Theoretical background and practical issues concerning exercise tests will be presented and discussed, together with some interesting case studies.

This year's program has focus/tracks for both basic and advanced CPET levels.

Due to the multidisciplinary character of these exercise tests, this course is intended for cardiologists, pulmonologists, sports doctors, physiotherapists, nurses, students and technicians, both experienced and less experienced in CPET.
